

SECTION TITLE

TITLE OF THE ARTICLE: WITH CAPITAL LETTERS

Firstname Authorlastnam1 ^{1,*}, Firstname Authorlastnam2 ²

¹ Optional data: Mathematician, (b. Boston, Mass., USA, 1938).

Address: Professional or personal address of author 1 (required).

E-mail: email.address@author1. Optional URL.

Next biographic entries are optional.

Fields of interest: Geometry, mathematical crystallography (also ornamental arts, anthropology - non-professional interests in parentheses).

Awards: Symmetry Award, 1987; Dissymmetry Medal, 1989.

Publications and/or Exhibitions: List your main symmetry-related publications/exhibitions in chronological order, following the conventions of the references. Please, give no more than the five most characteristic items here.

² *Address*: Professional or personal address of author 2 (required).

E-mail: email.address@author2. Optional URL.

Optional biographic entries, as for author 1.

* Corresponding author

Abstract: *The abstract of your paper in italic. Please summarize here what is original in the paper: methods, results, etc. The abstract should summarize in a few sentences what the readers and the reviewers can find in your paper. Please think that several databases may incorporate your abstract without change, and that your paper can be retrieved from it.*

Keywords: keyword1, keyword2, keyword3, other keywords.

PACS: 11.30.Qc, 24.80.+y, 33.15.Bh, 61.50.Ah, 87.15.B-, 78.20.Ek

MSC: 11G42, 14J33, 52B15, 53D37, 58D19, 58J70, 76M60, 81R40

1. INTRODUCTION

Introduction, state of the art, etc. Please realize that the readers of the Symmetry Journal are not necessarily experts in your field. Please cite exact references.

2. THEORY

Methods. General paragraph.

General paragraph. Noindentation.

2.1 Subsection

Optional subsection here.

2.1.1 Sub-subsection

Optional sub-subsection here.

2.2 Subsection

An other optional subsection here.

3. RESULTS

Results.

3.1 Subsection

Optional subsection here.

TABLE HERE (CENTERED OR NOT)

Table 1: legend of table 1

Main text. Comments.

HIGH DEFINITION FIGURE HERE (CENTERED OR NOT)

Figure 1: legend of figure 1

Main text. Comments.

3.2 Subsection

Optional subsection here.

ANOTHER HIGH DEFINITION FIGURE HERE (CENTERED OR NOT)

Figure 2: legend of figure 2

Main text. Comments.

4. DISCUSSION

Discussion.

4.1 Subsection

Optional subsection here.

5. CONCLUSION

Conclusion.

Acknowledgements

If you wish, you may express thanks to any colleague, peer, etc., who contributed to your paper with advices, ideas, comments, corrections or any concrete professional or technical assistance. Acknowledgement to the reviewers should be avoided, (unless they contributed essentially to change the scholarly content of the paper). Please avoid titles like Prof., Dr., etc.
