

Achoo!

Footnotes to [WYSIWYG](#), a group show on eBay and [DFOS](#).

Achoo! – catchment areas are defined for eBay and offer two collectible versions for the occasion namely a **Basic patch** and a **Deluxe patch**. Both reflect on a built-in human response to environmental influences across attendant means, protocols and their layers of codes.

The **Basic patch** is a knitted item, related to the **inner-elbow area**, cut out of the left sleeve of the creator's cardigan. A site chosen in compliance with recommendations to catch the unavoidable discharge of bodily fluids that accompany the response. Incrusted by sneezes, it supports a delicate mist-like pattern that covers the fluff and knots. The dimensions of this item are 21 cm x 18 cm x 21 cm x 18.5 cm and it is made of black synthetic yarn.

The weave of 0s and 1s that make up the image, similarly to the actual loops of the yarn that create a pattern, carry messages both discernible and indiscernible to the naked eye. Think of human readable language, encoding of the visual (still image, resolution, non-adult content, knitting pattern, etc), as well as, the mist-like pattern traces adjusted to the context of eBay with a dose of art historical references. The object comes with a signed certificate of origin and will be mailed to the buyer's address in airtight packaging. The buyer is responsible for shipping costs.

Price: €500 + **shipping**.

The **Deluxe patch**

Comes in a different price range that will take into account all practical aspects: travel, accommodation, etc. The artist would travel to an agreed location, restrictions may apply, perform a set of sneezes in the presence of the buyer onto a surface chosen by the buyer which would become a record of the action(s) by the way of a mist-like pattern and be the property of the buyer.

Please see developments arising from unpublished aspects:

Time based: a sneeze or a fit of them are time based.

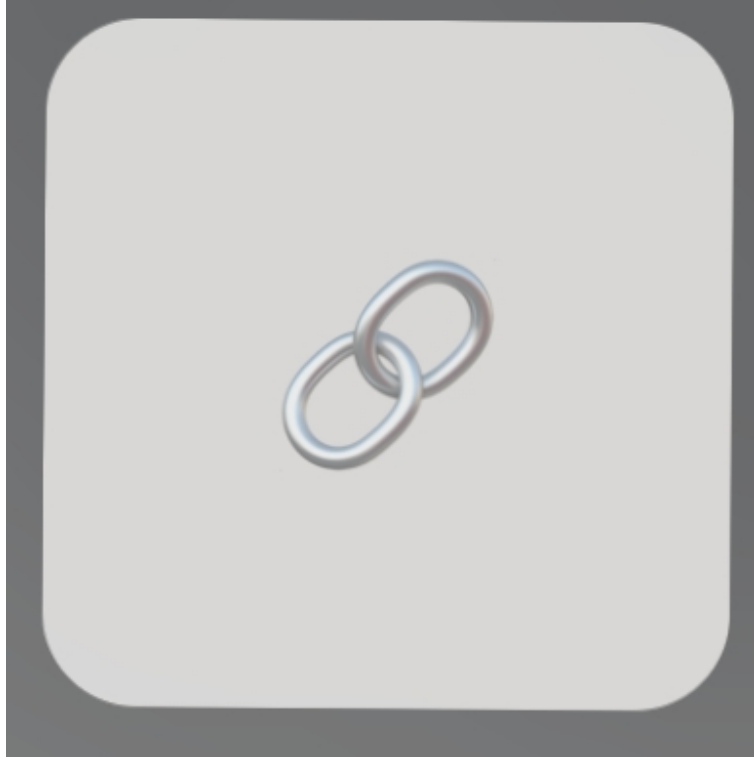

Sample: Either achoo img files, themselves can be seen as such.

Visual: Code, in this case both accompanying .png files delivered are stand-ins for the items.

Code: Various layers of code make up the sample. Click on links below!

See: platform and its language, steganography, visual (still image, resolution, non-adult content, knitting pattern, etc) as well as mist-like pattern traces the adjusted to context of eBay with a dose of art historical references.

Price to be negotiated!

A note for **Nancy Drew**, please, click, sniff and sleuth the incrustated images of [Basic Patch](#) and [Deluxe Patch](#).
